Move Started For U.S. Seizure Of Coal Pits

Solons Would Give Terms Miners Like

Washington, Feb. 22.—(AP)—With only two days to go before the government really begins cracking the contempt of court whip over striking coal miners a move started in Congress today for federal seizure of the pits on terms the miners like.

The proposal, sparked by Chairman Lesinski (D-Mich.) of the House labor committee, is to give President Truman power to take over the mines, with any profit from operations under seizure going to the federal treasury. That would tend to put pressure on the operators. In past seizures the profits have gone to the owners.

Meanwhile the government moved in for more active mediation in the dispute as cooling furnaces drove new thousands of non-mine workers off their jobs and chilled more public places such as school. The threat of cold hearths in homes grew too.

More Fruitless Talks
While the chill spread, John L. Lewis and the operators ground through two more long court-ordered bargaining sessions. Federal mediators called the morning one fruitless. They wouldn't talk at all at the end of the afternoon meeting. The next session comes at 10 a.m. (CST) tomorrow.

While the chill spread, John L. Lewis and the operators labored through another court-ordered bargaining session which federal conciliators called fruitless.

And the rank and file of the United Mine Workers sat pretty much on the sidelines, still crying "no contract no work" and paying scant attention to the stop-strike injunction, work orders from Lewis or the threat of contempt action against their union.

PMW Miners Out
About 10,000 progressive mine workers, who had been keeping Illinois coal output up to about 25 percent of normal, went out on a strike of their own after failing to reach a contract agreement.

There was an outbreak of violence in Utah. Operators of non-union mines called for police help after one of their truck drivers was wounded by gunfire when he refused to run his load of coal off the road as pickets ordered.

In Pennsylvania, guns and tear gas were standard work equipment for non-union miners, and officers patrolled roads against roving caravans of pickets.

Vogeler's Wife Says Broadcast Not Like Husband

New York, Feb. 22.—(AP)—"I am sincerely sorry...I have been treated correctly and fairly...I know that I must be punished..."

In short, stumbling phrases like these, the voice of Robert A. Vogeler was heard in New York today—making his final plea to the Hungarian People's court that convicted him of spying and sabotage, then sentenced him to prison for 15 years.

The National Broadcasting Company, recorded Vogeler's words, broadcast originally on the Budapest radio, Mrs. Vogeler, in Vienna, heard the broadcast, too, and she said by transatlantic radio:

"It was my husband's voice speaking but not his words."

"I made notes of more than 85 places in his speech that I knew the words had been put in his mouth."

"Everything he said was in such a colorless monotone. Bob is an excitable, warm and lively guy. No one knows that better than I do."

"Maybe he was drugged or hypnotized or beaten—maybe just bullied into it by promises of freedom. I don't know. But that wasn't the normal, intelligent Robert Vogeler speaking. That I know."

Reporters listening here got the impression that Vogeler, an assistant vice president of International Telephone and Telegraph Corp. at the time of his arrest, either was reading or reciting a well-learned speech.

NAVY OFFICER SAYS FLYING SAUCERS REAL

New York, Feb. 22.—(AP)—A Navy officer says flying saucers were seen over the White Sands, N.M., proving grounds for guided missiles last year, and he thinks the discs are space ships from another planet.

The officer, Commander Robert B. McLaughlin, writes in the March issue of True magazine that saucers were seen at White Sands in April, May and June, 1949.

On one occasion, he said, two saucers chased a Navy rocket. The Air Force has called the disc hoaxes or misunderstandings of natural phenomena.

Says Wallace Asked Commies For Support

Washington, Feb. 22.—(AP)—A former undercover agent for the FBI testified today that Henry A. Wallace once conferred with two well-known Pittsburgh communists to support for his third party presidential campaign.

Matthew Cvetic was the agent. He told the House un-American activities committee he himself was one of the pair of well known communists party members. He identified the other as George Wuchinich.

Cvetic has been telling the committee how he bored into the communist party in western Pennsylvania and spent seven years as an active, trusted member while slipping reports on its activities to the FBI.

Today he named 13 men, headed by organizer Steve Nelson, as the top level Reds in western Pennsylvania. And he told of communist efforts to infiltrate the key steel, coal and electrical industries in the region.

Wuchinich, the witness said, was one of the 13 and his special fields were the progressive party and the American Slav congress.

Cvetic said that he and Wuchinich conferred with Wallace and Wallace's campaign manager, "Beany" Baldwin, in the former vice president's room at the Schenley hotel in Pittsburgh on Nov. 11, 1947.

Wallace could not be reached immediately for comment. C. B. Baldwin, who was Wallace's campaign manager, said he and Wallace had talked to many people in Pittsburgh. "Not believing in loyalty tests," he said, "we made no effort to ascertain the individual political beliefs of any person who sought an interview or who accompanied any group to see Wallace."

Cvetic testified: "Wallace and Baldwin questioned Wuchinich and myself on the number of Slav votes we felt we could deliver in our capacity as officers of the Slav congress."

"At the time both Wuchinich and I were well known Communist party members in Pittsburgh."

Telephone Strike Put Off 60 Days

Hammond, Ind., Feb. 22.—(AP)—Fire which destroyed the Parrish grade school today drove 325 pupils into a snowstorm, and burned slightly three teachers who supervised the children's escape.

Principal Helen Broadhurst, who suffered arm burns, reported the blaze started in the attic of the single story, eight-room wooden school house.

Dorothy Steinberger, physical education teacher, was treated for burns on the neck and hands. Joan Miles, sixth grade teacher, escaped with singed hair.

Teachers had the pupils leave the building in orderly fashion. Many of them left behind their coats and were taken to nearby homes in the Hesseville residential area on the south east side of the city.

The temperature was 25 degrees with a brisk wind whipping the snow. Cause of the fire was not immediately determined.

Charles Schonert, maintenance engineer for Hammond schools, said he had checked the stoker in the school an hour before the fire and found it in good shape.

A kindergarten pupil, five-year-old Betty Ann Rosenswank, said she heard "an explosion" before the fire started.

School officials valued the building at \$80,000.

Senate Orders Probe Of State Dept. For Reds

Washington, Feb. 22.—(AP)—The Senate ordered its foreign relations committee today to investigate a republican's charges that communist spies are operating from inside the state department.

The charges were made by Senator McCarthy (R-Wis.) in a Senate speech Monday night. He said there are or have been 81 card-carrying communists in the department and that their operations were directed by a "big three"—two men and a woman. He refused to name them.

Secretary of State Acheson has said there is no truth in the accusation and that he is satisfied with the operations of the loyalty program in his department.

At the insistence of republicans who demanded a "complete and full investigation," the resolution offered by democratic leader Lucas of Illinois was amended in three respects.

The investigators were ordered to subpoena the secret loyalty records and files of all state department employees accused in the inquiry.

The committee was instructed to hold public hearings on any informal charges of disloyalty made against any individual.

Illinois News Briefs

Cairo, Ill., Feb. 22.—(AP)—Drains on Alexander county relief funds to aid persons driven from flooded lowlands prompted officials today to borrow \$10,000 from relief taxes levied for collection later this year.

County board members said help from the Illinois emergency relief commission may be asked. They expected that relief needs would exhaust \$40,000 in relief taxes before they could be collected.

Centralia, Ill., Feb. 22.—(AP)—A \$410,000 high school vocational and industrial arts building on the Centralia campus was dedicated last night. Vernon L. Nickell, state superintendent of public instruction, and Dr. Delyle W. Morris, president of Southern Illinois, spoke briefly.

Alton, Ill., Feb. 22.—(AP)—The bite of a white rat used in laboratory experiments has brought serious illness to Loren K. Freeman, biology professor at Shurtleff College here.

He is in an Alton hospital suffering from what doctors term "Rat Bite Fever." He was bitten on the left index finger last Monday.

Freeman suffered a similar bite about nine years ago.

Dixon, Ill., Feb. 22.—(AP)—William Savage Morris, 83, died yesterday of burns suffered about three weeks ago when his clothing caught fire from an open fireplace.

Carmi, Ill., Feb. 22.—(AP)—The little Wabash river here rose about 12 inches overnight, routing several families from flooded homes.

An estimated 80 persons, including those still in temporary quarters from the January flood, are out of homes on Carmi's east side.

The river's rise followed yesterday's 2.3 inches of rain here.

Sparta, Ill., Feb. 22.—(AP)—Fire broke out early today in the two-story brick international order of Odd Fellows building in downtown Sparta, but it was brought under control within an hour.

A lodge meeting was held in the second floor quarters last night. A food market occupies the first floor. The origin of the blaze was not determined.

Carbondale, Ill., Feb. 22.—(AP)—Appointment of Miss Ruth Trueberg as district public health nurse for five counties was announced yesterday. The area embraces Monroe, Perry, Randolph, Union and Washington counties. Miss Trueberg is a native of Golconda and came here from Peoria where she was an assistant chief nurse at a State Hospital.

Says Pressure For Atomic Meet With Russ 'Dangerous'

Washington, Feb. 22.—(AP)—Rep. Durham (D-NC), vice chairman of the Senate-Atomic Energy committee, said tonight that the pressure for an atomic conference with Russia is "dangerous."

Endorsing President Truman's decision to match power with power and build up atomic defenses while trying to bring the Soviet Union into an agreement for effective atomic controls, Durham declared:

"It disturbs me to read newspaper statements—some of them issued by scientists—suggesting that we retreat from realism and pin our hopes to some scheme or other that could succeed only if all men, and particularly the communists, were completely enlightened and unselfish."

"Keeping our atomic defenses in order can only buy us time," he said, in an address to the North Carolina Democratic club of Washington.

"We must use that time to work and struggle for the day when international control enables us to realize the true promise of the atom."

AUSTRALIA MAY BAN COMMUNIST PARTY

Canberra, Australia, Feb. 22.—(AP)—Australia's new government gave notice today it plans legislation to outlaw the Communist party in this country and to bar future nationalization of industry or commerce unless the voters want it.

The legislative program was outlined at the opening of the first parliament under the new Liberal country party Coalition headed by Prime Minister Robert G. Menzies. The Labor party was defeated by the Coalition in last December's election after eight years of power.

Truman Says U.S. Must Be Ready To Defend Freedom

Southern Demos Beat Down Try To Limit Debate On FEPC Bill

Washington, Feb. 22.—(AP)—Southern Democrats tonight beat down an attempt to limit House debate on a bill to set up a fair employment practices commission (FEPC).

With the aid of some Republicans, they won the first real test of strength on the controversial measure, one of the keys in President Truman's civil rights program.

That test came at 9 p.m. (CST) when Rep. Powell (D-N.Y.), author of the FEPC bill, sought to curb a southern-inspired filibuster which may keep the House in session all of tonight and into tomorrow.

Powell moved to limit debate on a substitute for the administration bill to 15 minutes. He lost 167 to 140 on a vote on which the members were not recorded by name.

The bill proposes the establishment of a fair employment practices commission with power to enforce rules against discrimination in the hiring or firing of workers because of their race, color or creed.

Powell and other Democrats supporting the bill are resisting attempts to substitute for the administration bill a non-compulsory plan to curb employment discrimination.

They had hoped to force a final showdown late tonight by sheer strength of votes. The results of the first test surprised them.

However, a motion to curb debate may be made at any time and the bill's backers were expected to renew it.

A spokesman for the southerners estimated that "two hundred amendments may be offered by opponents. Even under limitation of debate, about ten minutes could be consumed on each amendment, just to get a vote on it."

The southerners forced eight roll-calls earlier in the day.

Despite the unusual night session, the galleries remained packed throughout the day and night. They were well-behaved.

Earlier delaying tactics had kept the bill off the floor for more than five hours. Delaying maneuvers were repeated during the two hours of general debate which preceded the offering of amendments.

The men insisting on its passage say it is a necessary step to implement the emancipation proclamation.

Southern opponents call it a vicious attempt to stir up racial strife. One of them compared it with the punitive legislation imposed on the south in reconstruction days.

The FEPC bill has been snaggled for months in the rules committee which refused to give it clearance to the floor. It was called up today under "calendar Wednesday" procedure. The rules provide that it must be disposed of in one legislative day unless the House by a two-thirds vote decrees that the discussion may go on longer.

The southerners' chief and practically only weapon was delay. It is generally conceded that the bill would command a majority if it came to a record vote.

The southern legislators, accordingly, flipped through their rule books and took advantage of every technicality, particularly the absence of a quorum—218 members. The roll had to be called each time, with consequent delay.

Record Balloting Expected In Fight For 625 Seats

London, Thursday, Feb. 23.—(AP)—Britain's 34,000,000 voters came today to their time of decision—whether to expand or contract the growth of socialism in their nation.

Generally favorable weather is expected to draw a record-breaking outpouring of the electorate. They begin marking their choices in curtain polling booths throughout England, Scotland, Wales and Northern Ireland at 7 a.m. (1 a.m. Central Standard Time). By 9 p.m.—14 hours later—their verdict will have been recorded.

First Vote Since 1945
This is Britain's first general parliamentary election since the socialist Labor party of Prime Minister Clement Attlee swept to power July 5, 1945.

A close race between the laborites and the major opponents—the conservatives—is forecast by most political observers.

For the past three weeks candidates of various parties have been campaigning in the hamlets and great cities of the nation. In their pleas for support, the candidates have described the balloting as a time of fateful decision.

The weather forecast for today is for a fair morning in eastern districts and occasional slight rain in southwest England, Wales and west Scotland. The rain is expected to spread eastward across central and northern England later.

The balloting specifically will be for members of the new 625-seat House of Commons, whose majority will form the new government. The old House was dominated by labor almost five years. The Labor party had 390 members at the dissolution of the old parliament by King George VI Feb. 3. The conservatives, labor's major opposition, had 201.

A record total of 1,838 candidates, behind more than 30 assorted political banners, are jostling for the chance to occupy the pew-like wooden benches in the world's oldest democratic parliament.

That's not a rosy prospect to people who lose their jobs," Lodge snapped. "They don't want relief—they want work."

Hoffman argued that U. S. management would make the necessary adjustments to meet the problems of European competition, and he commented:

"If they don't, they would go out of business anyway. We have a continual shift in industry. Those who don't adapt themselves can't survive."

He looked in the doorway of the room which Attorney General William L. Phinney said was the room of Mrs. Abbie Borroto, 59, the cancer-ridden housewife Dr. Sander is accused of killing.

Just before leaving the hospital, Dr. Sander had heard again the reading of the indictment which charged that he injected "10 cubic centimeters of air four times in close succession" in her veins.

The indictment adds—"well knowing the said air injections to be sufficient to cause death."

HITCHHIKES TO CALIFORNIA TO GIVE SELF UP TO POLICE

Beverly Hills, Calif., Feb. 22.—(AP)—Police reported today that transient who said he tried to give himself up in Chicago hitchhiked to California to surrender to authorities on a minor check charge.

Bert Ahlgrim, 27, walked into a Beverly Hills police station today and told desk sergeant R. W. Bordars he was wanted in Long Beach for passing worthless checks. F. L. Oberg, Long Beach inspector, said the amount of the checks involved was less than \$100.

Oberg quoted Ahlgrim as saying he recently tried to give himself up to authorities in Chicago and was told he would have to go to California if he wanted to surrender.

So Ahlgrim said, he hitchhiked to California.

Sander Calm As Jury Visits Death Room Of Patient

Manchester, N.H., Feb. 22.—(AP)—Dr. Hermann N. Sander stood pored-faced and looked into the doorway of the death bed room of his "Mercy Death" patient today.

For the first time since the start of his trial for murder, his wife was not with the doctor as he accompanied the 13-man jury to the Hillsboro county hospital.

The jury had been completed at the morning session of the trial. Throughout a half-hour visit in the brick hospital the doctor showed no emotion. He stood silent—occasionally with his hands in his pockets.

He looked in the doorway of the room which Attorney General William L. Phinney said was the room of Mrs. Abbie Borroto, 59, the cancer-ridden housewife Dr. Sander is accused of killing.

Just before leaving the hospital, Dr. Sander had heard again the reading of the indictment which charged that he injected "10 cubic centimeters of air four times in close succession" in her veins.

The indictment adds—"well knowing the said air injections to be sufficient to cause death."

Denounces Reds As Armed Threat

Washington, Feb. 22.—(AP)—President Truman today took the occasion of Washington's birthday to deliver a stinging denunciation of Communism as an armed threat and "a modern tyranny far worse than that of any ancient empire."

If force is necessary, he said, then we stand ready to use force to combat the "deadly attack" of those who would destroy freedom.

Describing his message as a "straight from the shoulder" talk on U.S. foreign policy, Mr. Truman left no doubt that his remarks were aimed directly at Soviet Russia and her satellites.

'Armed Imperialism'
"The great danger of communism does not lie in its false promises," he said. "It lies in the fact that it is an instrument of an armed imperialism which seeks to extend its influence by force."

Under a gray drizzling sky, the President spoke at ceremonies marking the unveiling of a 17-foot statue to the nation's first president at the George Washington National Masonic memorial in nearby Alexandria, Va.

Covering a wide range of topics in his 2,200-word address, Mr. Truman made these major points:

1. "We in the United States are doing and will continue to do all that lies within our power to prevent the horror of another war."

2. "We are working for the reduction of armaments and the control of weapons of mass destruction."

3. But—the United States will not accept any "sham agreement" that does not include a "workable international system" for control of atomic weapons.

Mr. Truman declared: "This (communist) threat of force is a challenge to all peoples who are free or wish to be free. The fundamental issue is whether men are to be free to choose their own way of life, or whether they must live under a system imposed upon them by force."

"Freedom cannot grow and expand unless it is protected against the armed imperialism of those who would destroy it."

The President went on to say that while the free nations "stand prepared to resist aggression," they are doing their utmost to find peaceful means for settling international disputes.

"They know that another great war could destroy victor and vanquished alike," he said.

Christian-Moslem Rioting Leaves 30 Dead, 130 Wounded

Asmara, Eritrea, Feb. 22.—(AP)—Hand grenades were hurled today in renewed Moslem-Christian rioting and casualties of the week were reported to have risen to 30 dead and 130 wounded.

Ten grenades exploded near the European quarter. British troops reinforced the police and the situation appeared to calm down at sunset.

The United Nations commission here warned the Eritrean people that the incidents, resulting in the deaths of children as well as adults, cannot and will not influence the commission's decision on the future of Eritrea.

The commission is on a fact-finding visit to determine whether Eritrea should be split up between Ethiopia and the Anglo-Egyptian Sudan, granted independence, turned over to Ethiopia or otherwise disposed of.

How to Get That Homework Done

Miss Gilbert, our grammar school principal, spoke the other night at the regular Parent-Teachers' meeting, on getting children to do their homework when they want to listen to the radio.

"We mustn't give them a flat 'no,'" Miss Gilbert said. "If we adults really believe in tolerance and moderation, we should instill these qualities in our children. Listening to the radio is fine—in moderation—as long as homework gets done, too."

From where I sit, the lady was dead-right. This radio vs. home-

work problem is a wonderful way to see to it that our youngsters acquire the sensible moderate habits they'll need later on. I've never believed in hard and fast rules—except where absolutely necessary. Let the other fellow do as he likes, as long as he's temperate and tolerant. Guess that's why I've never felt we should quarrel with the fellow who is partial to a glass of beer—the "Beverage of Moderation."

Break up that Cough-GLUE

If you have a nagging, hacking cough, following a cold, what you need is something to break up the phlegm that sticks like glue to the membranes of throat and lungs. Use Bell's Cough Syrup. It causes the membranes to pour out extra liquid—thus helping to loosen and flow the glue-like phlegm. Also, it tends to soothe the nerves which run down into the cough region, so your impulse to cough is relieved. Yet Bell's contains no narcotics. Its ingredients are prescribed by many doctors. Get Bell's Cough Syrup today.

The Time The Anti-Trust Lawyers Killed Their Own Case!

For ten years the anti-trust lawyers have been attacking the business methods that make it possible to give the public the best quality food at the lowest prices.

In our last ad we told you how Federal Judge W. H. Atwell, at Dallas, threw the anti-trust lawyers and all their inflammatory charges against A&P right out of his court.

But the anti-trust lawyers were not satisfied with decisions against them by three federal judges.

They still wanted to destroy A&P.

They Appealed to New Orleans

So they appealed Judge Atwell's decision to the three-judge Circuit Court at New Orleans.

One of the three, Judge Curtis L. Waller, agreed with Judge Atwell that the case should be dismissed.

The other two members of the Circuit Court, Judge Joseph C. Hutcheson, Jr., and Judge Allen Cox, although saying the case should be tried, agreed that the indictment was vague and contained many allegations which were inflammatory.

They decided that Judge Atwell at Dallas should protect A&P from these inflammatory allegations and could order the anti-trust lawyers to supply the defendants with a bill of particulars.

So the case was back in Dallas again.

Judge Atwell, carrying out the decision of the Circuit Court, struck out the inflammatory matter.

He said that without this inflammatory and prejudicial matter the Grand Jury might never have returned the indictment.

Judge Atwell said to the anti-trust lawyers:

"There are many statements in the indictment which are not at all in violation, and are highly prejudicial and inflammatory."

The anti-trust lawyers objected. They advanced an amazing argument. They said that the removal of their inflammatory allegations (which all four judges had agreed did not belong in the indictment) destroyed their case.

Judge Atwell instructed the anti-trust lawyers to furnish the court with a bill of particulars. In short, he wanted specific charges instead of vague generalities. He set the deadline for furnishing this material at January 15th, 1944.

When the anti-trust lawyers twice asked for more time, pleading sickness among their staff, Judge Atwell extended the time to February 25th because he believed that they were honestly trying, in good faith, to prepare the material he had requested.

Actually, it developed, they were using the time to get ready to drop the case in Dallas and start it in another court.

They Quit in Dallas

On February 26th, while the judge was still waiting for his answer, and without any previous notice to him, the anti-trust lawyers gave a story to the newspapers in Washington, announcing that they were dropping the case in Dallas.

They said that it was their intention "to file a substantially similar suit in an appropriate jurisdiction at an early date."

The "early date" turned out to be the same day.

As soon as one anti-trust lawyer killed the case in Dallas, another anti-trust lawyer filed a new case in Danville, Illinois. This new case made most of the same allegations that had been made and dropped in Dallas; and that are being made against us today.

So now, according to the anti-trust lawyers, all four judges who had ruled on the Dallas case were wrong.

Despite defeats in three federal courts in widely separated parts of the country, they continued their campaign to destroy A&P.

When Judge Atwell heard of their action he ordered the anti-trust lawyers to prepare an order for his signature dismissing the Dallas case.

In signing this order he said to the anti-trust lawyers:

"This nolle prosequi does not have the sanction or approval of this court. That is not necessary, nor that the government ask for the court's approval."

"It is, however, a matter that may be presented to the other court and may be of interest to the people at large."

So after their efforts to destroy A&P had failed in Washington, D. C., Wilson, North Carolina, and Dallas, Texas, the anti-trust lawyers moved on to Danville, Illinois.

They were still determined to destroy this company which had brought more and better food at lower cost to millions of American families.

They Were Wrong Three Times Before!

Three times the anti-trust lawyers went into federal courts and made serious and damaging charges against A&P.

Three times federal judges said the anti-trust lawyers were wrong and rendered decisions against them.

In previous ads in this series we told you about these other anti-trust "cases" involving us, which the judges said were not cases at all.

We think you should know about these previous cases, because once again the anti-trust lawyers are making damaging "allegations" that could seriously affect our business if they were believed by the public.

There was the time in Washington, D. C., when they said we and other good American citizens conspired to fix the price of bread in that city.

This was the time Federal Judge T. Alan Goldsborough ruled that A&P and the other defendants did not even need to put in a defense. He instructed the jury to bring in a verdict of "not guilty".

It was the time Judge Goldsborough said to the anti-trust lawyers:

"If you were to show this record to any experienced trial lawyer in the world, he would tell you that there was not any evidence at all."

"Honestly, I have never in my over forty years' experience seen tried a case that was as absolutely devoid of evidence as this. That is the honest truth. I have never seen one like it."

There was the time in Wilson, North Carolina, they said we and other good American citizens conspired to fix prices paid farmers for their potatoes.

This was the time Federal Judge C. C. Wyche directed the jury to bring in a verdict of "not guilty".

It was the time Judge Wyche said to the anti-trust lawyers:

"In my opinion there is no testimony produced from which it can reasonably be inferred that the defendants entered into a combination to depress or lower the price of potatoes."

"I might say that I never tried a case in my life where a greater effort, more work, more investigation had been done, combing almost with a fine-tooth comb to gather evidence."

"But, as was said a long time ago, you can't make brick without straw, and you can't make a case without facts."

There was the time in Dallas, Texas, when they made practically the same "allegations" they are making today.

This was the time Federal Judge W. H. Atwell ruled that the case should not even be tried. He said that the indictment contained inflammatory statements that he would not permit to be presented to a jury.

It was the time Judge Atwell said to the anti-trust lawyers:

"I know of no American rule, and I wish I had the power to underscore the word 'American,' which permits us to try a man because of his size."

"If I thought I was presiding over a court and that I might have to sentence some person because he was a great big fellow, or because he was a Lilliputian, I would feel like resigning. God knows we don't want it ever to occur in America that the size is going to determine whether a man is guilty or innocent."

Committee Will Be Appointed Soon To Tackle Fuel Crisis

A citizens' committee was in the process of formation Wednesday to deal with the coal shortage crisis in Jacksonville, and to supervise any system of rationing that may be devised.

Representatives of the city council and the Chamber of Commerce have conferred regarding the emergency. Another meeting was scheduled for Wednesday afternoon. A complete survey of coal stocks was under way to determine how much fuel is available.

As coal piles of householders and business establishments dwindled, the heaviest snowfall of the season descended on the community. Several inches of snow had fallen at noon, bringing additional anxiety to hundreds who have only a few days' supply of coal on hand.

HALF-CENTURY HIGHLIGHTS

WAITING FOR A STREETCAR, perhaps, or maybe just waiting for Lefty. Nobody who saw this unimpressive-looking Georgian peasant standing all alone on a Moscow street corner in the early days of the Russian Revolution could have foreseen that by mid-century he would be the most constantly and most closely guarded person in the world. At the start of this century, Stalin was an obscure Georgian youth of 20 who had just been expelled from a religious seminary and was now preaching Marxist doctrine in a "little oil fields." From a Bolshevik revolutionist and a Siberian exile, he has grown to a position of dictatorial power unequalled in history, with his Communist empire creeping over ever-broader areas of the vast continent of Asia.

Women of Moose Contribute \$100 To Mooseheart

In recognition of the first anniversary of Women of the Moose Chapter 1079, and in honor of Grand Chancellor Kathryn Smith, a class of four candidates was initiated at the chapter meeting Tuesday evening. The class will be known as the Kathryn Smith class.

The grand chancellor delivered an interesting talk in description of the work at Mooseheart, where a large number of orphaned children are cared for and educated. The chapter presented Mrs. Smith with a \$100 warrant to be applied on the building fund for a new chapel at Mooseheart. The chapel will be known as "The House of God" and will be used by all faiths.

Geraldine Peters was ritual chairman at the meeting. Jerry Keen acted as master of ceremonies, presenting Donna Thomas, Mary Vetter, and Shirley Hoots, a trio of baton twirlers.

The ritual chairman served anniversary cake and coffee. Miss Smith presided at the coffee table. Thirty-eight members were in attendance.

The regular entertainment night of the chapel will be held Feb. 28 at 8 o'clock.

Glenn Coultas Farm Identified From Air Photo

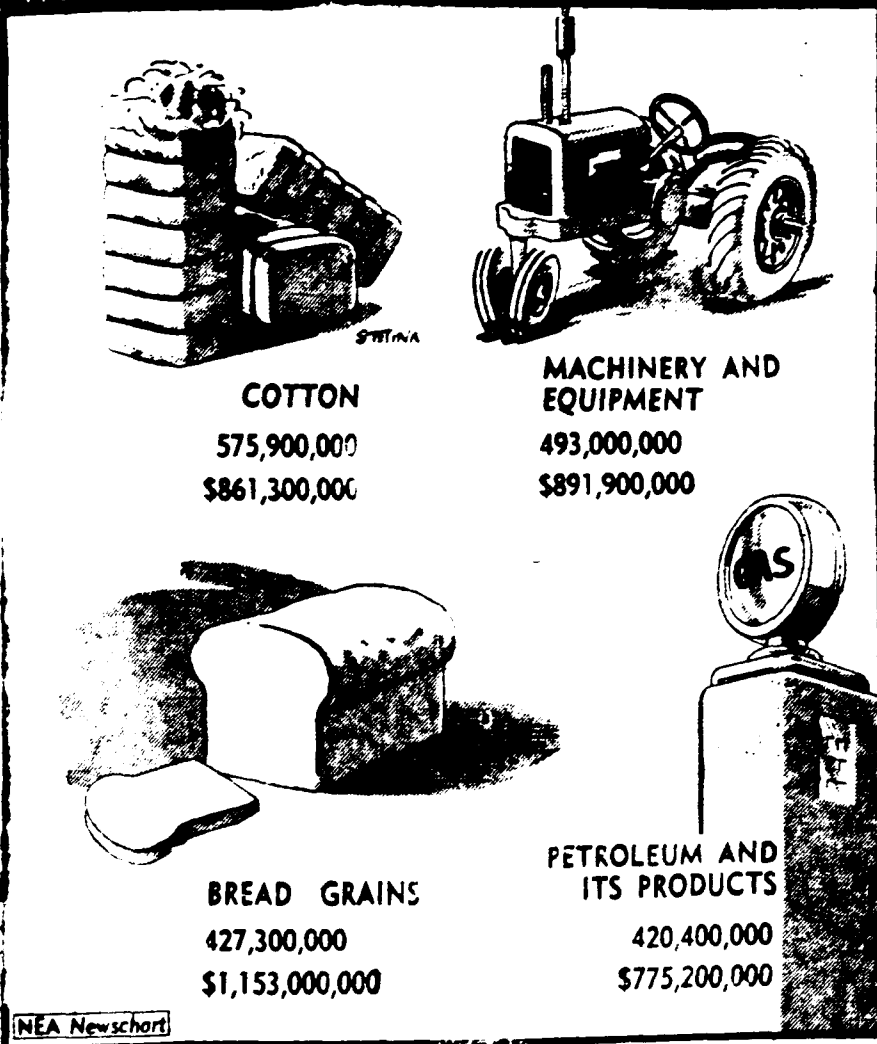

The farm pictured in last week's Lucky Farm Photo Quiz contest in the Journal and Courier has been identified by Mr. and Mrs. Glenn Coultas as their home, located one mile east of Riggston on U. S. Route 36. Within a few minutes after they saw the photograph they were certain of its identity, picking out various landmarks from the air.

The farm consists of 13 1/2 acres, but Mr. Coultas owns and farms more than 400 acres, a portion of which is devoted to raising fine Angus cattle. He also is proprietor of the Packard automobile agency at Pittsfield.

The Coultas farm home was the third of a series of aerial photographs in the Lucky Farmer Photo Quiz contest, sponsored by the Journal and Courier and 50 local business men. The photo which was published this week in Tuesday's Journal and Wednesday's Journal has not yet been identified by the contestants.

Mr. and Mrs. Coultas will be presented with an enlarged picture of their farm and \$50 worth of gift certificates. The presentation will be made at the Fox Illinois theater Saturday night, provided Mr. and Mrs. Coultas have returned from a business trip.

CHICAGO LIVESTOCK MARKET REPORT

Chicago, Feb. 22.—(P)—Prices on livestock ranged all the way from steady to \$1 higher today. The stockyards were open in spite of the partial holiday, but storms in the supplying areas severely curtailed country offerings. While packing plants were closed for the holiday, their buyers were on hand with an eye to the rest of the week and possibly continuing bad roads.

This demand combined with eastern order filling pushed hogs up 25 cents to 50 cents, cattle strong to \$1 higher, and sheep steady to 25 cents more.

Most barrows and gilts sold from \$16 to \$17.50, the top, and sows from \$13 to \$15.50, the top on these going to \$16.

A few loads of high-grade choice steers sold from \$30 to \$32.50 and one load of mixed good and choice Iowa-fed steers reached \$33.50. Most medium and good steers and yearlings were \$22.50 to \$29.00 and similar heifers \$23 to \$27.50. Good cows made \$20.50 and below, sausage bulls \$22.25 downward, and choice vealers \$32 and below.

Fed woolled lambs topped at \$26.75 for two loads and short types were \$24.75 and under. Yearlings and ewes were too scarce for a market.

Receipts on sale by unofficial estimate were 5,000 hogs, 5,000 cattle, 300 calves, and 1,500 sheep.

Tractionizing is the BEST method known to give tires extra grip on wet, slippery or icy roads! This method uses no recapping materials mixed with sawdust or abrasives that fall out, leaving a number of tiny holes riddled through the entire thickness of the tread. Goodyear Tractionizing "tattoos" its thousands upon thousands of rough-edged holes only into the top part of your original tough tread where it does the good.

Score Predictions Climb As Cold Wave Hits Houston

Houston, Tex., Feb. 22.—(P)—Score predictions on the \$10,000 Houston Open golf tournament began to climb today as a cold wave moved in on the heels of a rain storm.

A field of 165 is to tee off tomorrow in the first round on the 6725-yard, par 72 Brae Burn Country Club course.

The rain, high winds and dropping temperatures caused no change in the tournament favorite, Hometown Jimmy Demaret, who once spent nearly five years as Brae Burn Club pro, was the top choice among fans and bookmakers.

Grouped closely behind the colorful Demaret were Johnny Palmer, Badin, N. C., the defending champion; National Open champion Cary Middlecoff, Ormand Beach, Fla., and Jackie Burke, Jr., the young Houston product who won the Harlingen Open Sunday.

Good weather predictions early in the week had 276 as the probable winning score for the 72-holes of play. Today's revisions, based primarily on the strong wind, ranged as high as 282, six below par.

Former Mayor Of Peoria Dies

Peoria, Ill., Feb. 22.—(P)—Homer Ahrends, 65, Mayor of Peoria from 1931-33, was killed last night when he was struck by an automobile on an icy pavement in the West Bluff district.

Police said the car was driven by James D. Corrigan, 44, a state representative and former Peoria county treasurer.

Ahrends, a Democrat, had been city collector of special assessments for several years. Before his election as mayor, he had been employed by the Peoria and Western railroad for 37 years, part of that time as general agent.

Survivors include two brothers and two sisters, all of Peoria.

Oil Capitol Wins Initial Victory As Three Year Old

Miami, Fla., Feb. 22.—(P)—Oil Capitol, one of the leading Kentucky Derby candidates, scored his initial victory as a three year old today at Hialeah race course by winning the \$10,000 added Everglades handicap by two lengths.

Calumet Farm's Theory, Warren Wright's hope for a fifth run for the roses triumph, trailed the dark gray Oil Capitol by two lengths for second and George D. Widener's Lights Up was third, a head behind Theory and four lengths in front of Mrs. James Carson's Kinsman.

It was Oil Capitol's first victory as a three year old. Tom Gray's baron yearling concluded a whirlwind campaign as a juvenile with four consecutive victories, including three stake races.

His time of 1:50 flat was two and two-fifths seconds off the track record—and world record equalling time—established by Calumet's Coaltown on Feb. 14, 1949.

Two dollar tickets paid \$3.90 and \$2.70 and a show ticket on Lights Up returned \$4.70.

No Special Agents Named By Illinois Game Law Board

Springfield, Ill., Feb. 22.—(P)—The board that has the say-so decided today there will be no badge-flashing, special conservation agents in Illinois.

The state board of fish and game advisors, after reviewing bizarre actions of some agents in the past, announced wholesale rejection of 2,000 applications for appointment to the honorary post.

A year ago, 9,172 special conservation department investigators had their credentials revoked when it developed that many abused privileges and few nabbed any game law violators. Only 82 ever had made an arrest.

Chicago Cubs Sign Last Of Holdouts

Chicago, Feb. 22.—(P)—The Chicago Cubs signed the last of their 1950 holdouts today—rookie pitcher Don Carlson—and purchased two negro players from Baltimore of the Negro American league.

Carlson, 23-year-old right hander from Denver, Colo., will report to the Cubs on Catalina Island Monday. Terms of his contract were not announced.

The two negroes are second baseman James Gilliam and pitcher Leroy Farrell of the Baltimore Elite Giants. Gilliam batted 301 last year. Farrell won eight and lost two. They will be sent to the Cubs' new international league farm team at Springfield, Mass.

James Gallagher, Cubs' business manager, left Chicago today for the west coast. He will inspect the Los Angeles Angels' training camp at Pullerton, Calif., then spend a short time on Catalina.

The Cubs are engaging in informal exercises before the official opening of spring training Wednesday.

MARDI GRAS ONLY MEMORY
New Orleans, Feb. 22.—(P)—At the toll of midnight, Mardi Gras in all its grand production and rollicking execution became a memory with the beginning of pious Lent.

The sharp moment of Carnival's end left only the trampled debris of paper hats, pop corn boxes and streamers of paper.

The Duke and Duchess of Windsor were royal visitors this year to Mardi Gras' royalty.

Big Ten Opens Grid Season With Non-League Tilts

Chicago, Feb. 22.—(P)—The Western conference opens its 1950 football campaign next Sept. 29-30 with all teams meeting non-conference opponents.

It's the first time since the war years that the Big Ten has gone entirely out of its conference for opponents to start the season.

The conference schedule released today shows that Iowa will open the campaign by meeting Southern California in a night game at Los Angeles Friday, Sept. 29.

The remaining conference teams get under way Saturday, Sept. 30, with these games: Ohio university at Illinois; Indiana at Nebraska; Michigan State at Michigan; Minnesota at Washington; Iowa State at Northwestern; Southern Methodist at Ohio State; Purdue at Texas, and Marquette at Wisconsin.

Michigan State's gridiron competition again will not count in the conference standings this season.

The Big Ten will be a nine-team football league until 1953 when Michigan State is fitted into the schedule.

Beloit Professor Refuses To Accept Large Inheritance

Beloit, Wis., Feb. 22.—(P)—A Beloit College professor says he's going to give away his inheritance of a life income from one-third of a \$2,000,000 trust fund.

Prof. Marriott C. Morris, Jr., who says he'll never take a penny for his own use, added he'll probably give the money to the cause of international peace.

The \$2,000,000 trust fund for Morris and his brother and sister was provided in an order in Philadelphia orphan's court Monday distributing the estate of their father, who died in 1948.

The 49-year-old Beloit associate professor of modern languages said he appreciated "my father's desire, but I feel that I have not earned the money. I have, I suppose, a responsibility to try to help advise what shall be done with it, and I hope to do the best that I can in that respect. That's all there is to it."

He said his being a member of the Society of Friends (Quakers) "might help to explain my feelings."

Morris, married and the father of a 10-year-old daughter, said he had not discussed the matter with his brother and sister.

Driver, Owner of Overloaded Truck Can Be Prosecuted

Springfield, Ill., Feb. 22.—(P)—Attorney General Ivan A. Elliott held today that both the owner and the driver of a truck can be prosecuted on an overweight charge.

In a formal opinion Elliott said that only one of the other could be prosecuted "would be an unreasonable interpretation" of the state uniform traffic act and the legislative intent behind it.

"It certainly would not be fair or reasonable to say that the owner of a vehicle who violates the act is immune because the driver was prosecuted," the attorney general said.

The opinion was requested by Thomas J. O'Connell, acting state public safety director. For the last year, the safety department has been conducting an enforcement campaign directed against truck overloading.

Meredosia Uses Speed And Drive To Defeat Routt Cagers 68-48

MEREDOSIA DISTRICT
Thursday's Game
Chambersburg vs. Chapin 8 p.m.
Doors open at 6:15 p.m.

Meredosia — Coach Jones' Meredosia Indians, pre-tourney favorites to win their own district meet, forged ahead here last night when they combined speed, drive and a 46 percent hitting average to down the talented Routt invaders by 20 points.

Spearheaded by Dickman, the local squad got off to a fast start by hitting the net from all angles and they kept up the clip to build up 68 points while Coach Paul Stroud's boys collected 48.

Spreen, the big wheel on the Jacksonville machine when it ousted Bluffs here Tuesday night, accumulated only nine points, a pair of field goals and five from the free mark. Coach Jones assigned Nortrup to the job of holding down the Routt sharpshooter and the Indian guard did a good job of it throughout the evening.

Meredosia Connects

Routt suffered sharply from an avalanche of successful tries in the first period, coming out on the small end of a 19-5 accounting. The visitors outscored the winners in two out of the four periods, but were never able to threaten the Meredosia advantage.

The fans who crowded the Meredosia high school gym were impressed by Newman's free throw record. The Indian center had sunk 18 consecutive free tosses during the last three games. He connected with No. 1 and 2 here Wednesday night, to build his total up to an enviable and impressive 20, but faltered on No. 21. Later he connected with three more straight ones.

Routt OK At Free Mark
Altogether, though, Routt had the better record at the gift line, getting 14 out of 21, a first class percentage for any team. The victors sunk 18 out of a possible 29.

Caster got 16 points to make him the top gunner for the losers. Spreen and Zellers each collected nine. D. Simon of the Indians tied Caster's mark and Nortrup took off enough time from his chore of guarding Spreen to rack in 13 points.

There will be only one game again tonight, when the favored Chambersburg quints backs Chapin.

33-School Field To Compete In Prep Swim Meet

Chicago, Feb. 22.—(P)—A 33-school field, including defending champion New Trier of Winnetka, will compete in the 19th Annual State high school swimming championships at New Trier's pool Friday and Saturday.

Both New Trier and Chicago's Lane Tech, the 1949 runner-up, again have strong squads entered.

Preliminaries in diving will be held Friday afternoon and in other events on Friday night. Finals are scheduled Saturday afternoon.

Other entries include: Argo, Bloomington, Thornton, Morton, Danville, Des Plaines, Evanston, Harvey, Highland Park, Hinsdale, Joliet Catholic, Joliet, La Salle-Peru, Proviso of Maywood, Oak Park, Peoria, Rockford East and West, Skokie of Niles, Urbana, and Chicago's Amundsen, DuSable, Harrison, Hyde Park, Morgan Park Military, Schurz, Steinmetz, Sullivan, Tilden, University and Wells.

Franklin Graders Drop I.S.D. Tilt

The Illinois School for the Deaf cagers were altogether too rugged for the Franklin visitors here Wednesday afternoon. The A squad won by a 63-31 tally and the B team took its game 20-8.

The Deaf players will meet the Blind on the I.S.D. floor at 7 p.m. tonight. The invaders were the decision in a game played earlier in the season and the Deaf squad is determined to make the series 1-all.

XXVII
AFTER leaving the Hallecks, Alice chose a quiet hotel on the upper East Side of New York City. She was presently sorry for her choice. The very quietness proved a drawback in forgetting the things she wanted most to forget. She had planned her program soon after she departed from Grovesnor Point. The thing to do was to get another job immediately; let it absorb her. To forget then as quickly as she could her connection with Brent and Muriel Halleck and a summer once so promising, that had come to such a dismaying end. The program was sensible. But Alice could not seem to make it work. A disturbing physical listlessness had seemed to take possession of her. It did not, unfortunately, extend to her mind. Her thoughts churned incessantly, going over and over the same ground again and again. Alice had, she realized, allowed herself to get so far involved in the affairs of the Hallecks that to forget them was next to impossible. She brooded over the stunning way in which Muriel had revealed a totally unsuspected side of her nature. Her true nature, perhaps. And, remembering, she felt a little numb. She had liked Muriel, grown fond of her; admired her ability and drive. But all along Muriel had worn a mask. And Brent? Even yet, despite Muriel's cold announcements, her conscience plagued her. While living under Muriel's roof, while she was paid by Muriel, Alice had stabbed her in the back. Belatedly and helplessly, Alice knew that she should have left Grovesnor Point after that night on the beach when she had first become—well, acutely aware of Brent Halleck. For a week Alice dawdled around the hotel, too upset to exchange its unwelcome quiet for more diverting surroundings. She was too busy with self-reproach. But one morning, she spoke to a too-pale oval of a face gazing at her from the mirror. "Now see here, Alice Pine!" Alice muttered. "You're an egotistical ass. You didn't break up your marriage. You're not that attractive. They'd begun to crack up before you ever came on the set. So stop beating yourself and get a job. Heaven knows you need one." She went downtown that same day, visited employment bureaus and advertising agencies. She filled out application blanks. BACK at the hotel late in the afternoon, Alice was slipping out of her street shoes when there came a light tap at the door. "Come in," she called, hastily thrusting her feet into slippers. The door opened. Muriel Halleck stood there. "M-Muriel!" Alice rose in astonishment. Muriel stepped into the room. She was beautifully dressed in a black sheer and small black hat. Her appearance was assured. Yet somehow, Alice thought, Muriel herself seemed subdued. "I'm very glad you sent me a forwarding address, Alice," she said. "And I charmed your desk clerk here into letting me come up without his phoning. I—I didn't know whether you'd see me, if you had warning." "But, Muriel, how silly!" "Well," Muriel looked at her gravely, "I couldn't take a chance. I had to see you, Alice. Something's not quite right." "Oh," Alice began, "don't let anything bother you." Muriel stopped her. "But it does, my dear. I'm off for the West tomorrow and I'll be gone a long time. And I'm going to have to live with myself out there and everywhere I go." "I don't understand." "You will, Alice. Listen! I knew exactly what you meant that last day when you said Brent had been cruel. Well—Muriel drew a breath—"you were wrong. What ever else Brent may be, he was never that." "You mean..." Alice checked herself, conscious of having almost shouted. "I'm afraid I do," Muriel's eyes went to her shoes. "It was I who whipped Rick a little, one night. And if I hadn't been a coward when you found the—that thing in my closet, I would have admitted it then and I wouldn't be here now. But I was cowardly enough, and mean enough, to put you under a misapprehension. Purposely, too." ALICE caught her hand. "Muriel! You don't need to say another word." "Yes, I do. I came to get this off my chest and I'll do it right." "Sit down," Alice said, pushing forward the single chair in the room. Muriel walked past it and sat on the bed. Alice sat down beside her. "I was terribly edgy that night, Alice," Muriel began. "A combination of things. Brent and I, mostly. Worrying about my work. And—oh, heaven knows what all. And I couldn't sleep with that confounded storm outside. But Brent sleeps like a log and he didn't hear Rick when he woke up crying. The child was petrified with fear of the lightning. That's what makes what I did so much worse." "Oh, please!" Alice said. "I understand. You needn't go on." (To Be Continued)

FUR COLLARS LOOKING UP

Hollywood—(AP)—By next Christmas no well-dressed male will be without a fur collar on his coat, says a Hollywood fur designer. Al Teitelbaum sees beaver as the favorite, with Alaska seal, nutria, squirrel, sheared fox and karakul also in style. Mink, sable and ermine will remain strictly for the ladies, "except for couples who want matching furs." Fur collars are the result of the European influence on men's finery, says Teitelbaum. "Even Aly Khan wears one. Fashion-minded European males have never given up fur coats and fur-trimmed coats. They even wear fur hats and warm fur inner linings."

Hollywood Begins Strong Revival Of Charleston Dance

Hollywood, Feb. 22 —(P)—Hollywood is blowing off a lot of steam these nights doing the dance of the '20's—the Charleston.

—And practically everybody's doing it. Everybody, that is, who's physically able.

The dance that Joan Crawford and Ginger Rogers used as a stepping stone to fame is having a terrific revival along the film colony's night club trail.

Gloria Swanson has been having a barrel of fun doing the intricate steps every Monday night, when the Mocambo is turned over strictly for the Charleston contests.

Among the participants were Kirk Douglas and Jane Wyman, Cornell Wilde and Gail Patrick, Ginger Rogers and her escort, Greg Bautzer, Dennis O'Keefe, Vera Ellen, Janet Leigh, Ann Miller and scores of other picture stars.

"PINKY" HELD OVER FOR MAJESTIC RYN

Announcement was made today that the motion picture "Pinky" will be moved over to the Majestic theatre for an additional three days. The decision was made due to the large attendance at the Illinois theatre during the first of the week and the unusual interest the film has created with the movie-going public.

"Pinky" deals with the subject of a negro girl who passed herself for white and has Jeanne Crain in the starring role.

ELM CITY BEAGLE CLUB RUNS PLAN A TRIALS

Beagle hound enthusiasts from many sections of Illinois were loud in their praise of the hunting grounds near Lake Jacksonville, where the local club held its first Plan A trials Saturday and Sunday.

Many declared "the best running grounds in the state are right here." The photograph shows a part of the gallery which attended the 15 inch trials Sunday. Winners in this division were, left to right, Lucas Ginger, owned by L. D. Lucas of Springfield, first; Allen Black Victory

Owners of the top two hounds were looking down when the group picture was snapped, so the Journal Courier photographer asked for a close-up. L. D. Lucas and Ginger are at the left; Lester Allen and his Black Victory are on the right.

Both of these classy beagles drove cottontails hard during the day, the judges reported. "Ginger was really on the line today," they added.

Rural Youth To Spur Community Aid Plans

Discuss Concord Fire Protection District At Meet

Concord—A meeting was held Friday evening at the village hall for the purpose of investigating possibilities of organizing a fire protection district for Concord and community. Members of the committee appointed for the purpose are Robert Nickel, chairman; Ted Kershaw, Robert McAllister, Howard Anderson, Wilbur Abernathy, Edwin Dietrick and Dale Bruner.

This session was a result of a joint meeting of interested persons of the Chapin and Concord areas about three weeks ago. Two major alternatives were discussed Friday evening: a Concord protection area which would be separate from any other or one incorporated with the Chapin district now under construction by residents of that community.

Attorney Harry G. Story, who has been the attorney for the representatives of all four such districts proposed in Morgan county so far, explained the legal steps necessary for formulation. He described the outlining of the area, the circulating of a petition, the public hearing on a day designated by the county judge. An election follows, held on the order of the county court, at which the citizens decide whether or not there shall be such a district set up.

If the vote is affirmative, Mr. Story continued, the court appoints three trustees who have authority to make the necessary purchases of equipment and to hire personnel if volunteer assistance is inadequate. They will also be empowered to levy taxes up to the maximum provided by law, 125 per cent of one dollar.

The districts already in existence, he added, have not found it necessary to levy the maximum tax after about the first two years, when they were buying their equipment.

The first district to be organized in this county was Woodson; the second Franklin, where voters will determine the issue on March 3.

Beagle Fans Like Hunting Grounds Adjacent To Lake

The beagle, that sturdy little hound who loves to chase rabbits, finds good running conditions just off the shores of Lake Jacksonville. And the owners declare the hunting grounds here "are almost perfect."

The Elm City beagle club held its first Plan A trials Saturday and Sunday. Organized only last year, the club now has 48 members enrolled. They'll

Paintings And Jewelry Show To Open Friday

Two separate exhibits will be shown at the Strawn Art Gallery for one week, beginning this Friday.

An exhibition of 56 representative examples of modern jewelry valued under \$50 will be on view in conjunction with a display of a group of paintings by Tom Cavanaugh, former Springfield man who recently received his master's degree in fine arts from the University of Illinois.

Work by 30 artists from nine states and the District of Columbia comprises the unusual jewelry show which was assembled and originally presented by the Walker Art Center in Minneapolis under the direction of Daniel S. Deffenbacher. The latter was also responsible for the original installation in eight specially designed display cases. In a report on the exhibit, the Everyday Art Quarterly observed:

"Jewelry is worn for two reasons: for its preciousness, or for its decorative value. Precious stones or genuine pearls are, above all, a sign of the affluence of the wearer and must be judged by different standards. But jewelry made of less valuable materials—costume jewelry—should be regarded as part of the wearer's clothing; its main function is to enhance a person's appearance, to be genuinely decorative."

"The majority of pieces in the exhibition achieve this desirable decorative quality. Others are more in the nature of miniature sculpture and are not entirely successful as jewelry."

Mr. Cavanaugh, holder of the McClellan Fellowship of \$1,000 at the University of Illinois, has had one-man shows in Springfield, Decatur.

Paintings And Jewelry Show To Open Friday

Two separate exhibits will be shown at the Strawn Art Gallery for one week, beginning this Friday.

An exhibition of 56 representative examples of modern jewelry valued under \$50 will be on view in conjunction with a display of a group of paintings by Tom Cavanaugh, former Springfield man who recently received his master's degree in fine arts from the University of Illinois.

Work by 30 artists from nine states and the District of Columbia comprises the unusual jewelry show which was assembled and originally presented by the Walker Art Center in Minneapolis under the direction of Daniel S. Deffenbacher. The latter was also responsible for the original installation in eight specially designed display cases. In a report on the exhibit, the Everyday Art Quarterly observed:

"Jewelry is worn for two reasons: for its preciousness, or for its decorative value. Precious stones or genuine pearls are, above all, a sign of the affluence of the wearer and must be judged by different standards. But jewelry made of less valuable materials—costume jewelry—should be regarded as part of the wearer's clothing; its main function is to enhance a person's appearance, to be genuinely decorative."

"The majority of pieces in the exhibition achieve this desirable decorative quality. Others are more in the nature of miniature sculpture and are not entirely successful as jewelry."

Arenza Rites Wed Joan Niemann, Eugene Delaney

Arenza—The marriage of Miss Helen Joan Niemann, daughter of Mr. and Mrs. Oscar Niemann of this city, and Charles Eugene Delaney, son of Mrs. Bertha Delaney of near Arenza, was solemnized at the home of the bride's parents on Saturday, Feb. 18. Rev. Robert Pitsch of Concord performed the double ring ceremony in a room adorned with spring flowers, in the presence of about 50 guests.

The bride, attired in a navy blue street length frock with a corsage of carnations, was given in marriage by her father. Her attendant was her cousin, Mrs. D. B. Hierman. The bridegroom, who was dressed in a gray suit, was attended by the bride's brother, Gordon Niemann.

After the ceremony a reception was held for relatives and friends of the couple. Mesdames Harlan Lovkamp, Carroll Wood and Miss Connie Lovkamp presided at the table, which was charmingly decorated with spring flowers.

The bride and bridegroom cut the three tiered wedding cake on which their names appeared, surrounded by roses. The cake was baked by Mrs. Carroll Wood. On the table stood a bridal doll that played the wedding march.

Mrs. Delaney, who is a surgical nurse at Passavant hospital in Jacksonville, graduated from Arenza high school in 1945 and from Passavant school of nursing in 1948. Mr. Delaney is employed as a salesman by Tom Cornish, Inc., there. He attended the Concord school.

After a short wedding trip the couple will make their home at 485 E. State street in Jacksonville.
